Experience

WEB DEVELOPER, DIALPAD AI

Remote, January 2026 - present

Tech Stack: Typescript, React, React Native, Next.js, Tailwind, Node.js, Contentful

- Develop and enhance Dialpad's web presence by building high-quality web pages, features, and tooling that improve usability, performance, and engineering productivity across the main website and related properties.
- Collaborate with cross-functional teams including design, product, and content to implement new pages, updates, and optimization tests while ensuring technical excellence through code reviews and best practices.
- Maintain and optimize web stack performance, handling updates, cross-browser compatibility fixes, performance improvements (e.g., load times and SEO), and responding to urgent technical issues or stakeholder requests.

FRONT END ENGINEER, ROBIN AI

London, February 2023 - June 2025

Tech Stack: Typescript, React, Tailwind, Apollo GraphQL

- Contributed to the modernisation of an outdated application UI, utilising TypeScript and Tailwind CSS to enhance functionality and user experience.
- Participated in developing a custom Microsoft Word add-on, leveraging TypeScript to incorporate advanced features for improved document management and user interaction.
- Design and implementation of new features for one of the company's most profitable products, employing a combination of TypeScript and Tailwind CSS to ensure high-quality, maintainable, and scalable code.
- Collaborated closely with UX/UI designers, backend developers, and product managers to convert design concepts and requirements into functional, user-focused web applications and features.

FRONT END ENGINEER, ITECH MEDIA LTD

London, August 2021 - October 2022

Tech Stack: Typescript, Javascript, SASS, React, Vue.js, Contentful, Jest

- Implemented a Contentful CMS for a product with 400+ pages.
- React and Typescript apps development for tailored use in the CMS implementation.
- Worked close to designers to develop the new homepage for the main product using Vue.js in the Front End, PHP for backend and Jest for Unit Testing.
- Continuously implemented SEO schema changes for our sites.

FRONT END DEVELOPER, WARDMAN UK LTD

Edinburgh, April 2021 - August 2021

Tech Stack: Javascript, SASS, React, Contentful

- Designed a new responsive website using Figma, focusing on user journey and the

development of reusable components and scalable coding.
- Implemented and supported the integration of Contentful CMS.

Personal Projects

- FITNESS APP

Tech Stack: Typescript, React Native, Next.js, Tailwind, Node.js, Express, PostgreSQL
Mobile app designed to plan, track and manage workouts.
